DETAILED ACTION

Response to Arguments

Applicant's arguments, see Remarks, filed 3/27/2006, with respect to the drawings have been fully considered and are persuasive. The objection of the drawings has been withdrawn.

Applicant's arguments, see Remarks, filed 3/27/2006, with respect to the 103 rejections have been fully considered and are persuasive. The rejection of claims 1-6 has been withdrawn.

Allowable Subject Matter

Claims 1-6 are allowed.

The following is an examiner's statement of reasons for allowance: the claims are patentable over the prior art because the prior art (Schliebs, Heissmeier, nor any other cited references) does not disclose two separate dividing walls each extending from the side wall to the bottom or including the screen surfaces and the walls disposed at a v-shape relative to each other.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Additional prior art not referred to, yet related to the present invention, are Uhrmacher (US 2122900), who discloses a dissolving container, yet does not have the features of two separate screened walls extending from the side walls; Rose (US 3342336), who discloses a screened single wall.
